

PALIMPSEST

Victorian Contradiction

Traffic VS. Congestion

The rapid development of London's transport system fell into chaos.

Wealth VS. Poor

The growing gap between rich and poor widened the formal ring of East London.

Rebellion VS. Tradition

The city is in the midst of cultural exchanges; classical rituals and increasingly weakened self-consciousness produced fragmented collections.

Family VS. Lust

In the era of abundance, the primitive inferiority of human is defeating respectability towards family.

Ordinance VS. Pollution

Escape from the Great Stink.

Concept - Social Contract

Losing To the Class

Build a communism working-living system which is different with the outside world.

State of Nature

"In the state of nature, all men are equal and everyone would have unlimited natural freedoms, including the 'right to all things' and thus the freedom to plunder, rape and murder. There would be no positive 'law of all against all'."
—Locke, Thomas Hobbes

Social Contract

"To avoid this, free men contract with each other to establish political community (civil society) through a social contract in which they gain security in return for subjecting themselves to an absolute sovereignty, one man or an assembly of men."
—Locke, Thomas Hobbes

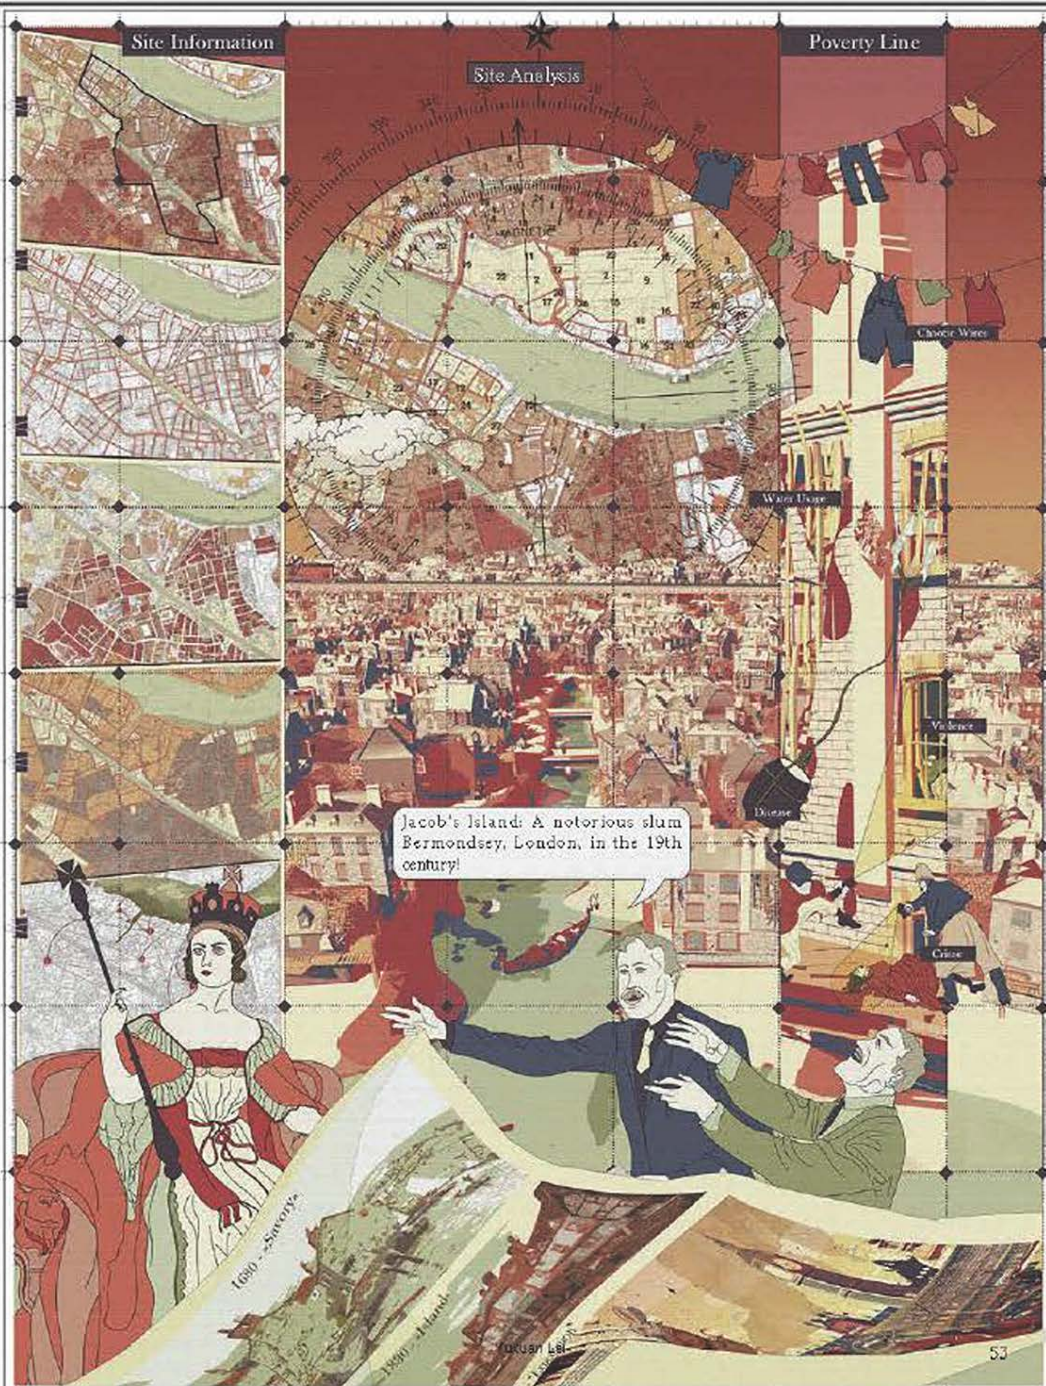

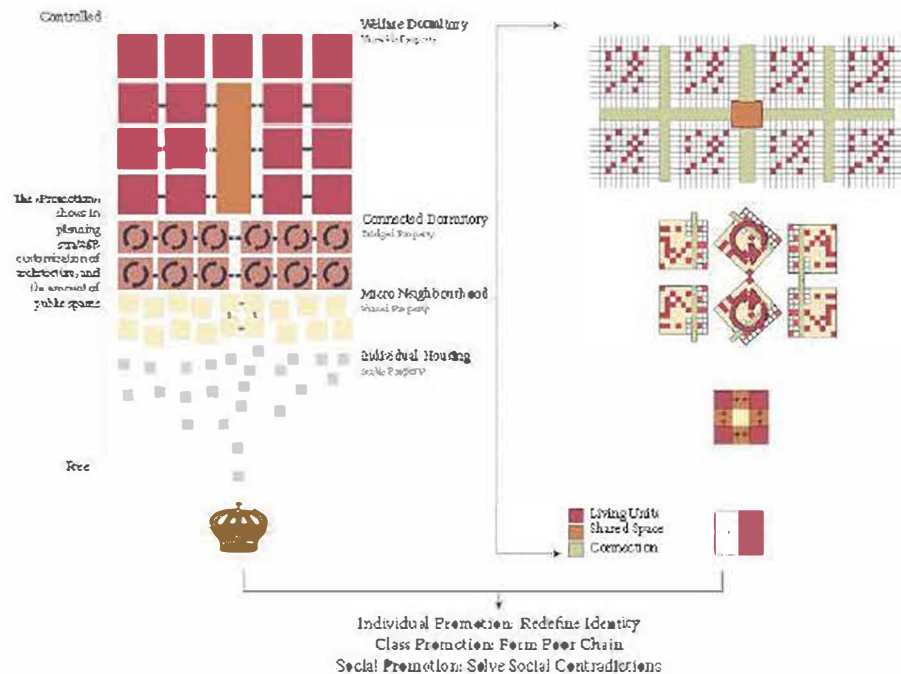

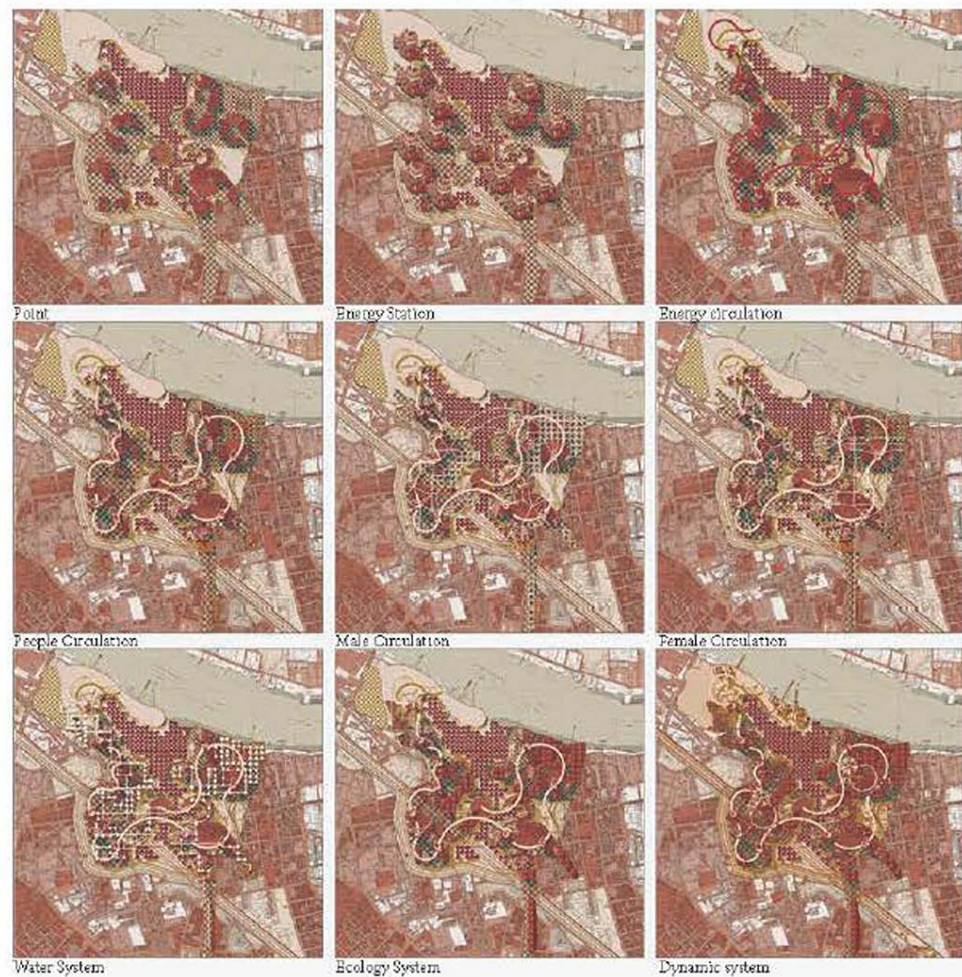

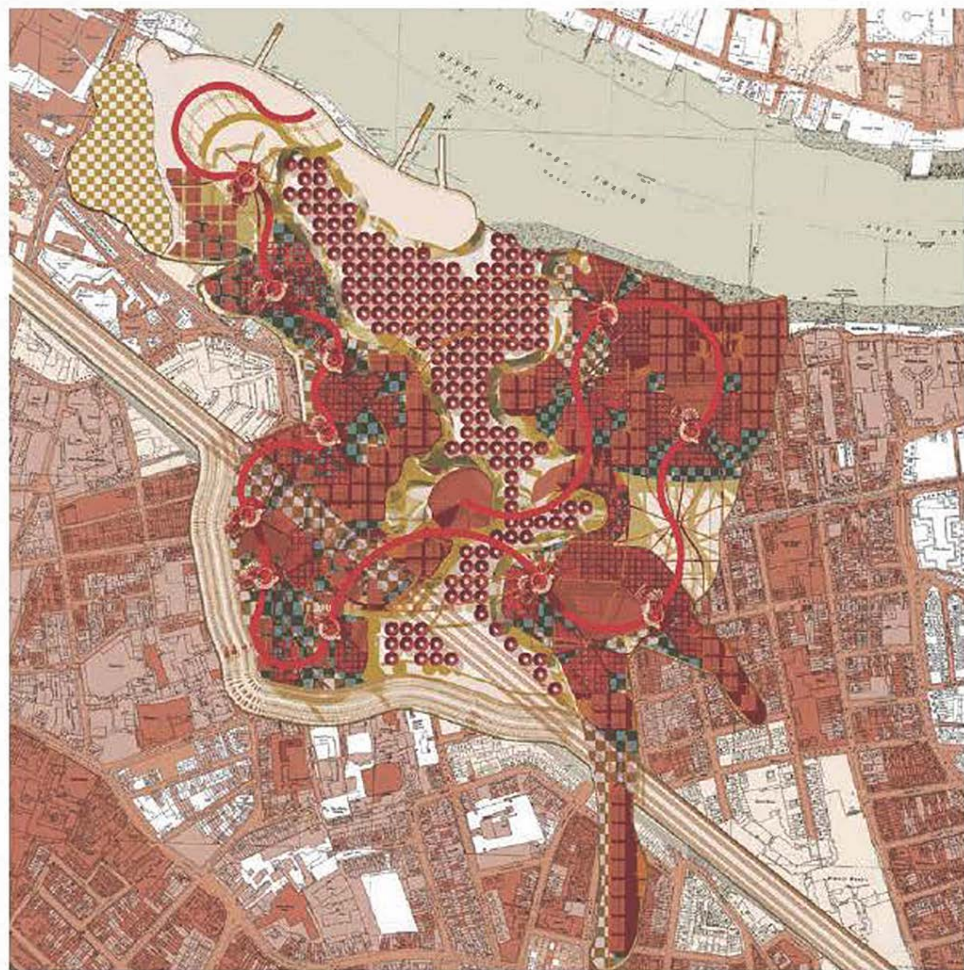

Promotion

Allice becomes queen.
—Catching Them Quene, Jane Carroll

What is that Social Contract?

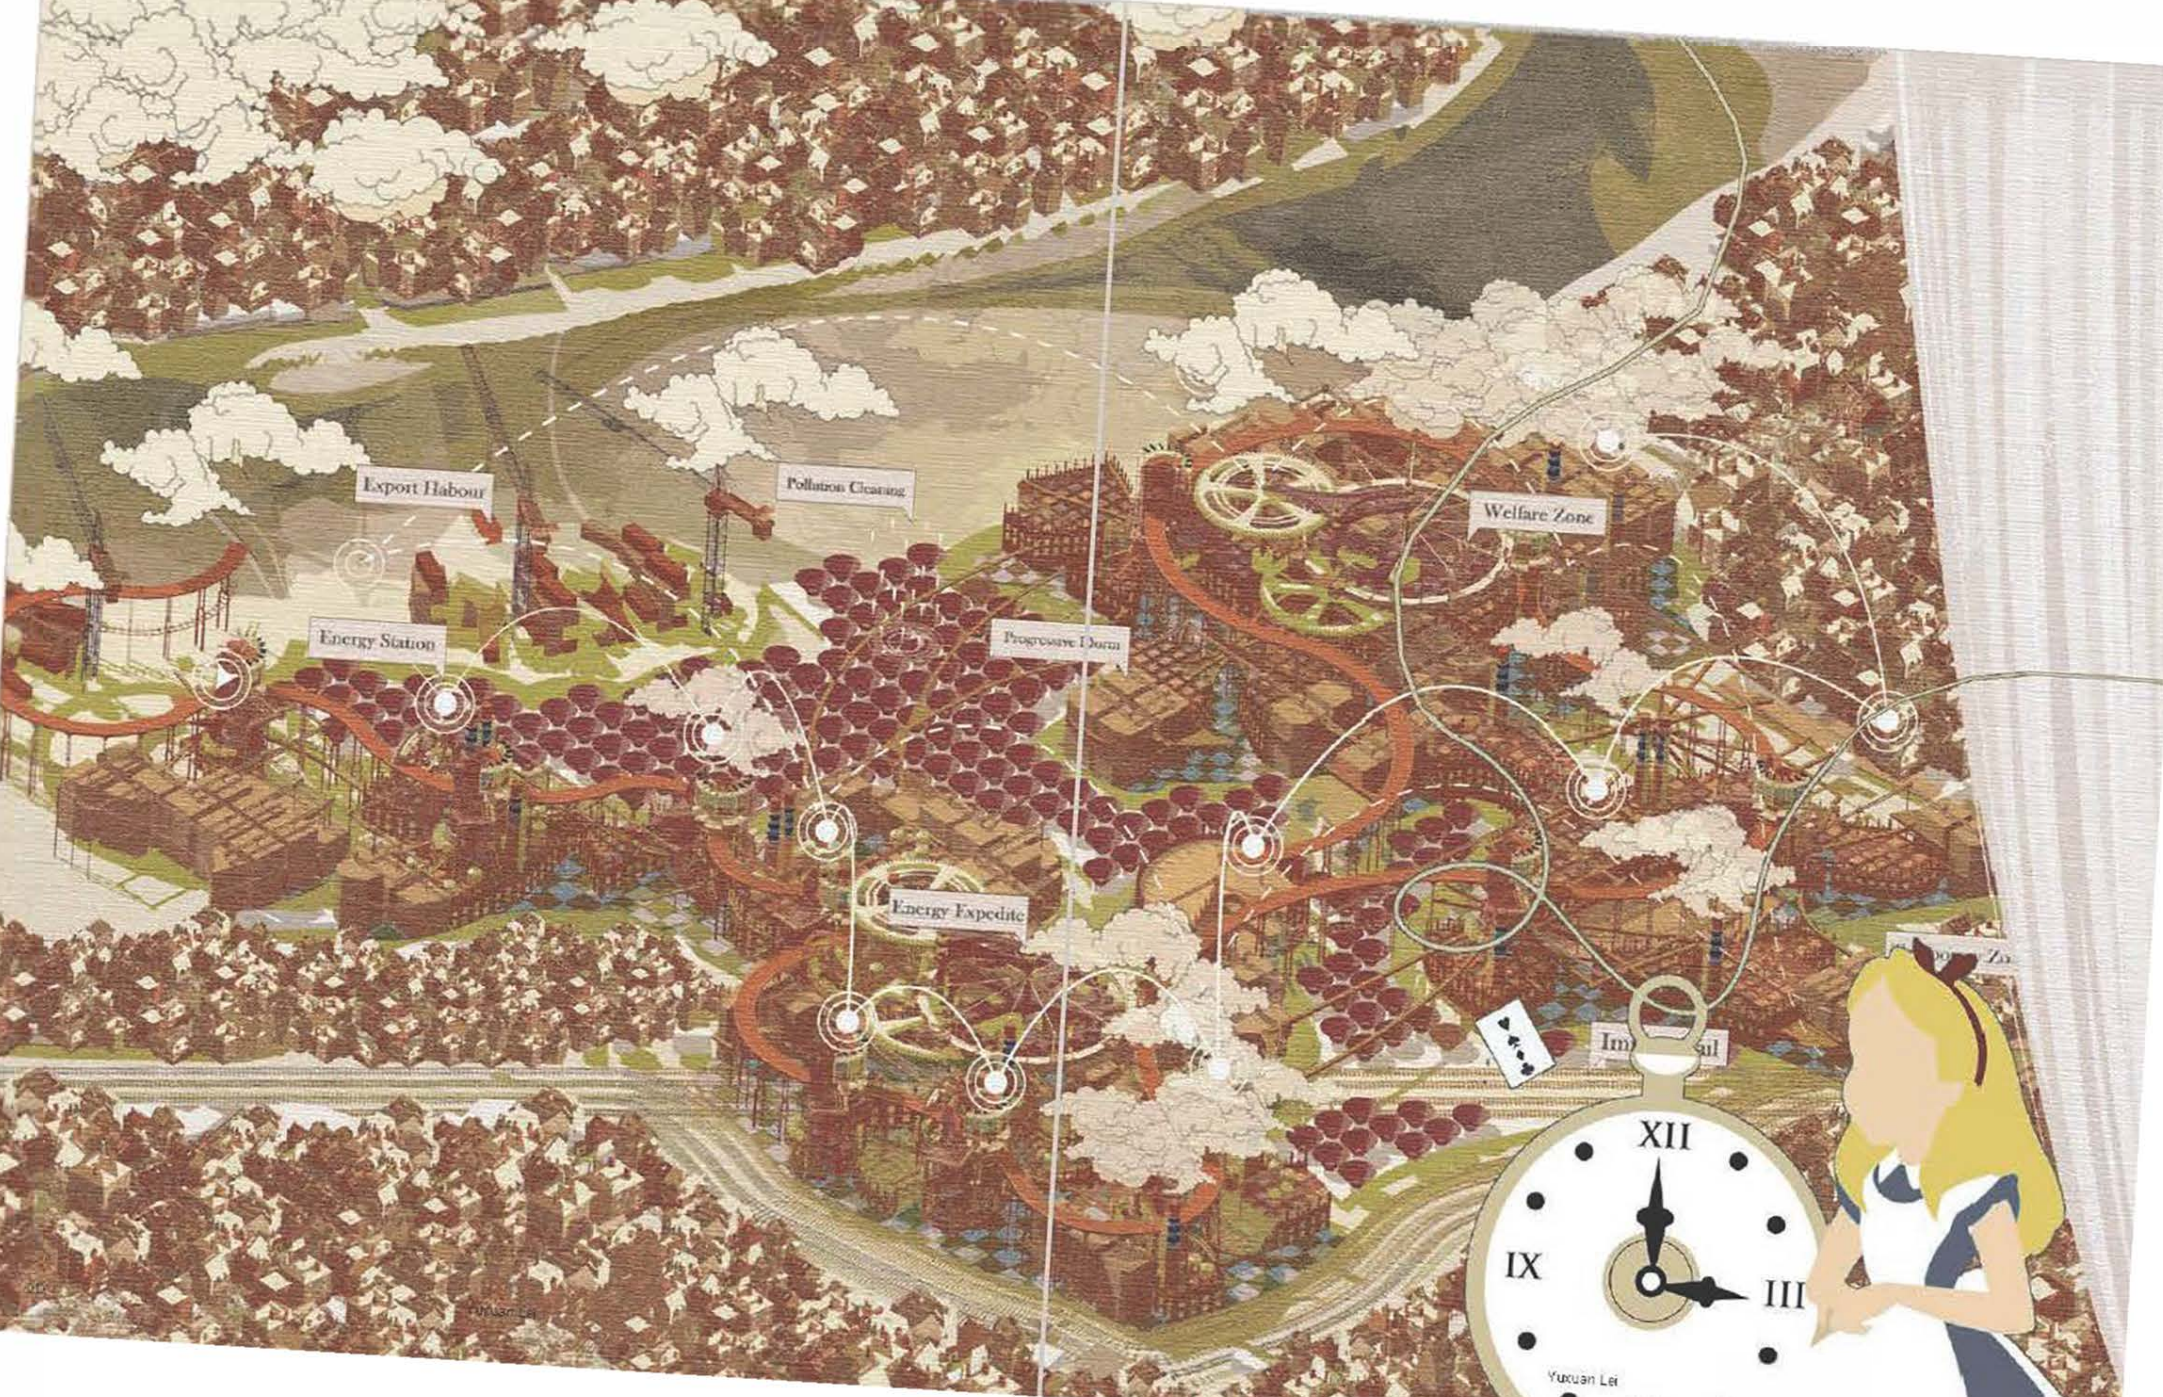

Red Queen Law - You have to run fast to stay at the same place!

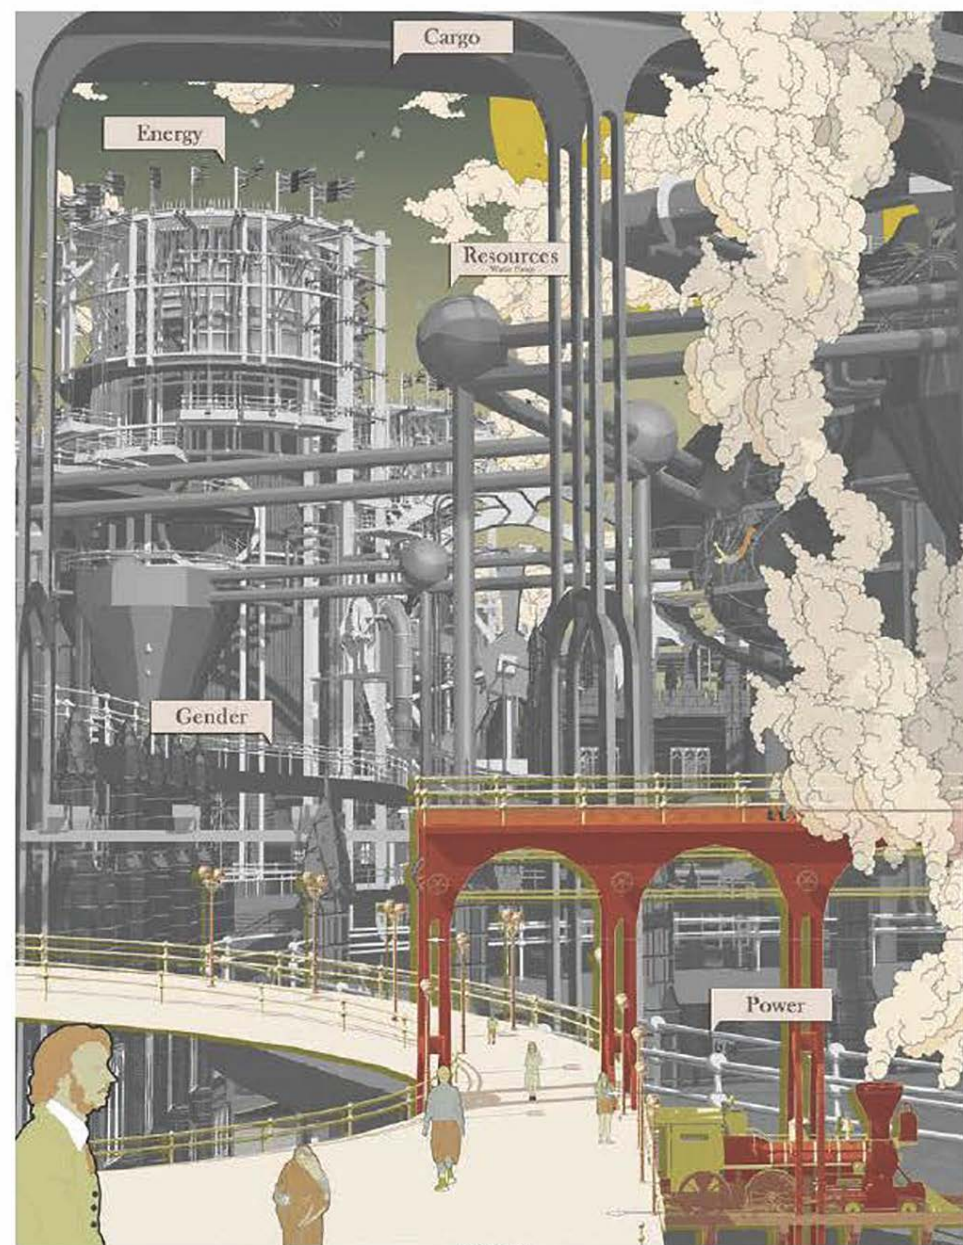

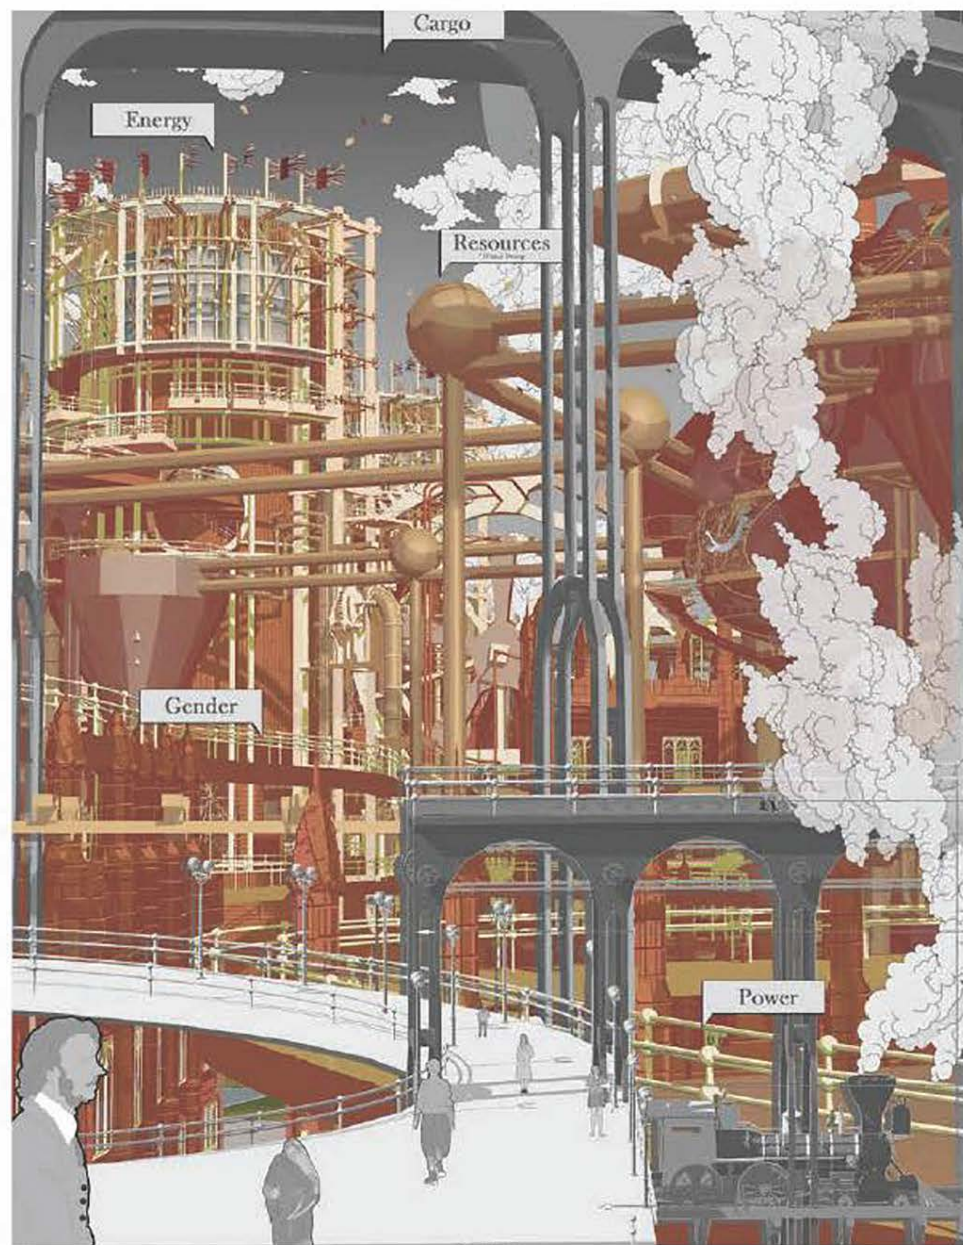

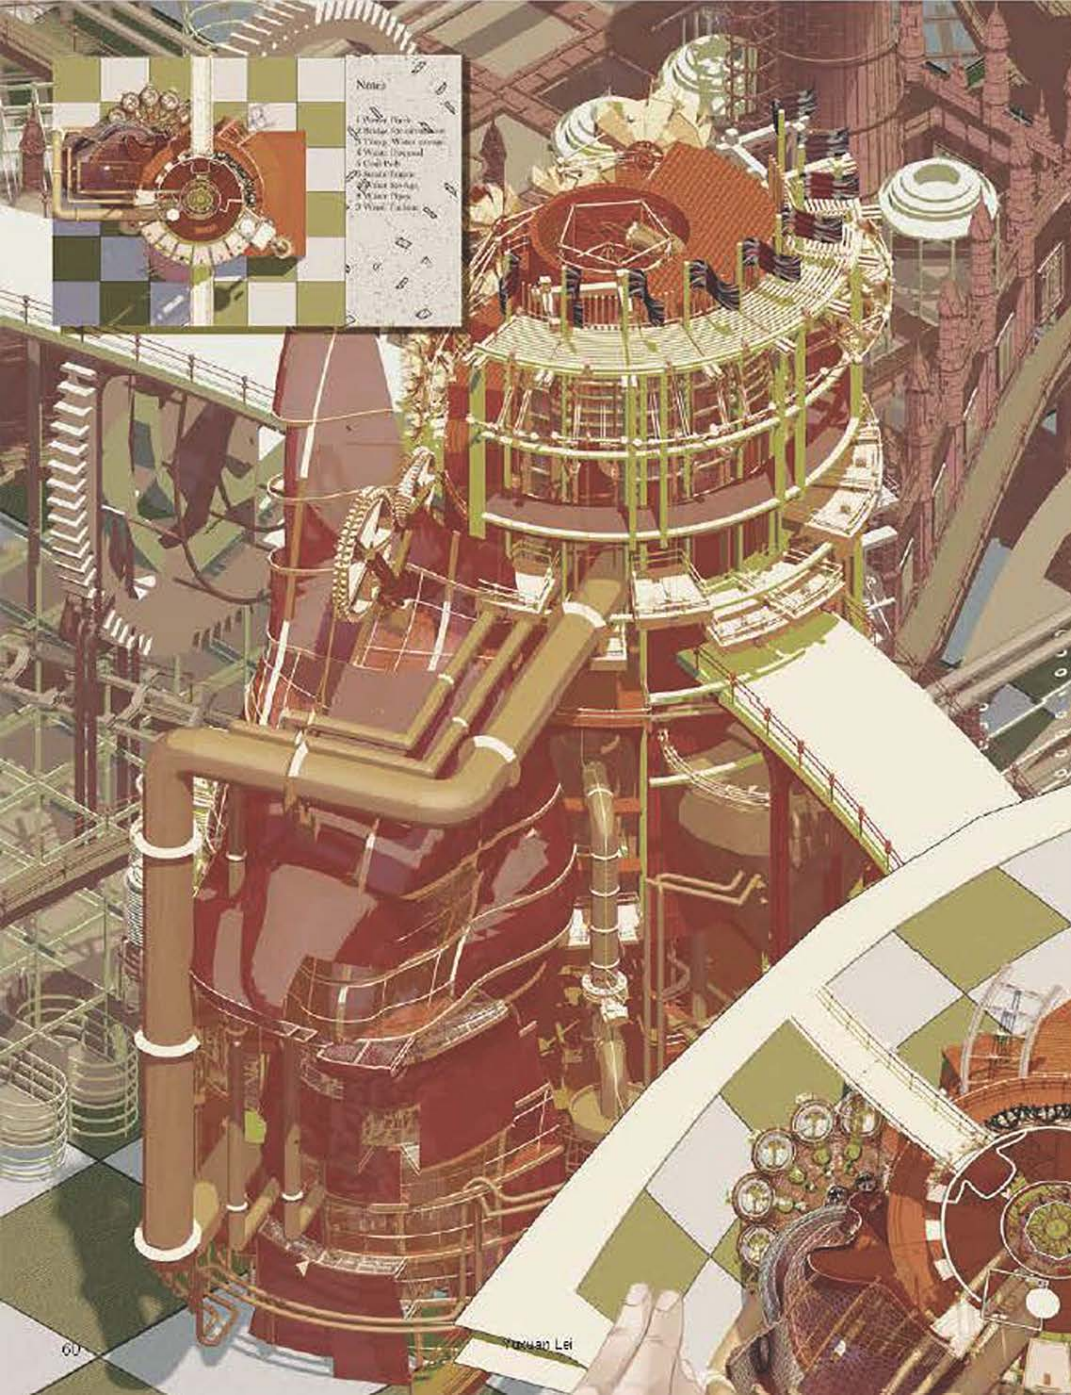

In the site plan and the overall need of the welfare system, I conceived a series of welfare houses to meet the progressive desire of people, energy station system, male and female factories, pure welfare facilities for the old, children, and the disabled, environmental protection system, and diversion of people and goods transportation system. Each system is like a precise machine that dynamics parts and factors within them will affect the circulation and operation of multiple systems.

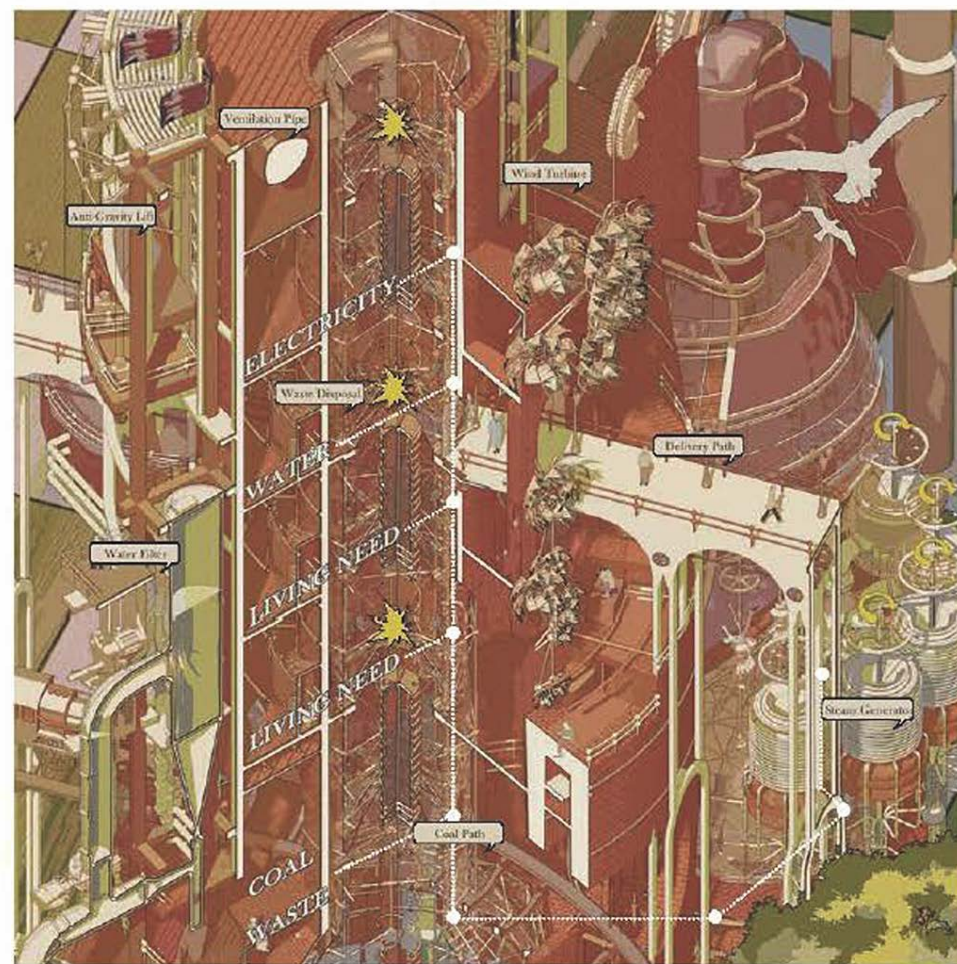

This diagram deconstructed the logic of design process (from the point to circulation to level faces) and content of those parts.

Rolling Section I

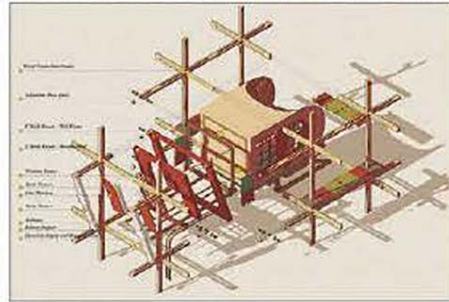

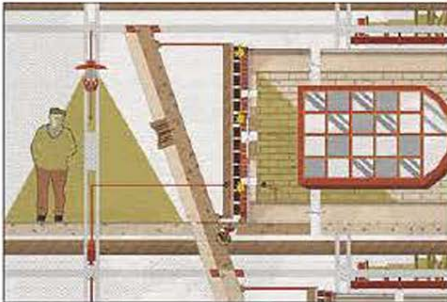

Rolling Section II

The Nomadic Living system requires
Negotiation of public spaces and
private spaces

Extra spaces can be provided if
facade is pushing out. However, more
facade units are pushed, more people
stagnate in the building and fail to
make progress for better types of
welfare house. It's not an honorable
symbol.
